We use the service "Cloudflare". The provider is Cloudflare Inc, 101 Townsend St., San Francisco, CA 94107, USA (hereinafter "Cloudflare").

VII) Storage duration

Unless a more specific storage period has been specified within this privacy policy, your personal data will remain with us until the purpose for data processing no longer applies. VIII) Note on data transfer to the USA and other third countries

Among other things, we use tools from companies based in the USA or other third countries that are not secure under data protection law. If these tools are active, your personal data may be transferred to these third countries and processed there. We would like to point out that no level of data protection comparable to that in the EU can be guaranteed in these countries. For example, US companies are obliged to hand over personal data to security authorities without you as a data subject being able to take legal action against this. It can therefore not be ruled out that US authorities (e.g. intelligence services) process, evaluate and permanently store your data located on US servers for monitoring purposes. We have no influence on these processing activities.

2. Mailchimp

This website uses the services of Mailchimp for sending newsletters. The provider is Rocket Science Group LLC, 675 Ponce De Leon Ave NE, Suite 5000, Atlanta, GA 30308, USA.

Mailchimp is a service with which, among other things, the sending of newsletters can be organized and analyzed. If you enter data for the purpose of receiving newsletters (e.g. e-mail address), this data is stored on Mailchimp's servers in the USA.

With the help of Mailchimp, we can analyze our newsletter campaigns. When you open an email sent with Mailchimp, a file contained in the email (known as a web beacon) connects to Mailchimp's servers in the USA. This makes it possible to determine whether a newsletter message has been opened and which links, if any, have been clicked. In addition, technical information is recorded (e.g. time of retrieval, IP address, browser type and operating system). This information cannot be assigned to the respective newsletter recipient. It is used exclusively for the statistical analysis of newsletter campaigns. The results of these analyses can be used to better adapt future newsletters to the interests of the recipients.

If you do not want any analysis by Mailchimp, you must unsubscribe from the newsletter. For this purpose, we provide a corresponding link in every newsletter message.

The data processing is based on your consent (Art. 6 para. 1 lit. a DSGVO). You can revoke this consent at any time by unsubscribing from the newsletter. The legality of the data processing operations already carried out remains unaffected by the revocation.

The data you provide for the purpose of receiving the newsletter will be stored by us or the newsletter service provider until you unsubscribe from the newsletter and will be deleted from the newsletter distribution list after you unsubscribe from the newsletter. Data that has been stored by us for other purposes remains unaffected by this.

Data transfer to the USA is based on the standard contractual clauses of the EU Commission. Details can be found here: <https://mailchimp.com/eu-us-data-transfer-statement/> and

https://mailchimp.com/legal/data-processing-addendum/#Annex_C_-_Standard_Contractual_Clauses.

After you have unsubscribed from the newsletter distribution list, your e-mail address will be stored by us or the newsletter service provider in a blacklist if necessary to prevent future mailings. The data from the blacklist will only be used for this purpose and will not be merged with other data. This serves both your interest and our interest in complying with legal requirements when sending newsletters (legitimate interest within the meaning of Art. 6 (1) f DSGVO). The storage in the blacklist is not limited in time. **You can object to the storage if your interests outweigh our legitimate interest.**

For more details, please refer to Mailchimp's privacy policy at: <https://mailchimp.com/legal/terms/>.

The IP address is anonymized immediately after collection so that the stored data cannot be assigned to your person. The anonymized data is used in particular for statistical purposes and for error analysis.

After order completion, your email address, which is hashed by cryptological one-way function, is transmitted to Trusted Shops GmbH. The legal basis is Art. 6 para. 1 p. 1 lit. f DSGVO. III) Special features of roadsurfer Subscription and roadsurfer Rent

1. Ident procedure for the rental of vehicles

Purpose of the data processing

The rental of vehicles as part of a camper subscription at <https://roadsurfer.com/de-de/camper-abo/> and via roadsurfer Rent at <https://roadsurfer.com/en/> requires the validation and legitimation of your person by means of an identification procedure.

For this purpose, you will send us a copy of your driver's license and an identification document (ID card or passport) via a secure connection.

To identify identity fraud, these images are stored by us after validation for a maximum of 30 days after termination of the rental contract for a vehicle and then deleted in accordance with data protection regulations. The information that you have a driving license will be stored for a maximum of 2 years and checked regularly so that we can comply with our statutory documentation obligation that you have a valid driving license. We store your identity card or passport number in order to protect ourselves against property crimes or to recover our property in the event of embezzlement and to comply with vehicle insurance contract requirements for claims settlement.

The aforementioned data processing procedures serve the purpose of contract preparation and contract execution.

The obligation to check whether you have a driver's license is imposed on us by law. The legal basis for the aforementioned processing is found in Art. 6 (1) (b) (performance of contract), Art. 6 (1) (c) (legal obligation) and Art. 6 (1) (f) DSGVO (legitimate interest).

Furthermore, we ask you as the person concerned to note that you are responsible without limitation for all violations of traffic and regulatory rules and other regulations and roadsurfer may be obliged to name the person concerned to the competent authority so that they can issue a warning fine.

If you are accused of having committed a misdemeanor or criminal offense with one of our vehicles, we will process your data stored with us (surname, first name, address, date of birth and all other contractual data) in accordance with our legal obligations and at the request of the competent authority, as well as the data transmitted by the competent authority from the respective country. Our legitimate interest is to avert sanctions from our company.

Involvement of third parties for data processing: IDnow GmbH

Video identification and driver's license verification is also carried out by the service provider IDnow GmbH, Auenstraße 100, 80469 Munich. For this purpose, we transmit the user's personal data (first and last name) to IDnow. IDnow assigns a transaction number to this data, which is communicated to you and with which you can start the video identification.

The identification is done by accessing the smartphone camera and captures the machine-readable part of the ID document/driving license as well as non-machine-readable parts, such as the address field. In the next step, other security features of the ID documents, such as holograms, are checked. The identification process is completed with a subsequent, brief "liveness detection" via the camera.

As part of the video identification process, a secure video connection is established between IDnow and your terminal device, as direct visual contact is required for identity confirmation. During the video identification process, either IDnow's systems automatically and/or an IDnow employee verify your identity based on the identification document.

Screenshots or photos of you and the complete front and back of your ID card or the front of your passport must be taken and stored by the IDnow employee to prove that the video identity confirmation has been carried out properly. In addition, IDnow will also record and store the conversation conducted between you and the IDnow employee in parallel with the video transmission. There will be no recording of the video image transmission. At the beginning of the video identification, the IDnow employee will ask you for your explicit consent to take screenshots or photos and to record the conversation. The data will be transmitted to us by IDnow and deleted from the IDnow servers after 3 days at the latest. If you do not wish to have screenshots or recordings made, you also have the option of having our support staff identify you by calling back.

IDnow has to assure the authenticity of the identity card or passport you present. For this purpose, the IDnow employee must visually check the integrity and the presence of the optical security features of the respective ID document in accordance with the regulations. For this purpose, please follow the IDnow employee's instructions to place the ID card or passport in certain positions in front of the camera. In addition, the IDnow employee will ask you to read out the complete serial number of your ID document.

The applicable privacy policy can be found at <https://www.idnow.io/de/regulieren/datensicherheit/>.

The legal basis for the aforementioned processing operations can be found in Art. 6 (1) (c) (legal obligation) and Art. 6 (1) (f) DSGVO (legitimate interest).

For more information on the right to object in this context with our legitimate interest, see [Section IV](#).

2. Data processing when renting a vehicle

We process the following data when a rental contract is concluded via roadsurfer Rent or roadsurfer Abo:

- Customer data: Salutation, first name, surname, address. Contact details (e-mail, phone number), age, data related to your driver's license (date of issue) ("Rental Customer Data");
- Vehicle Location Data: Location information about the Vehicle ("Location Data");
- Technical vehicle data: data collected by means of a vehicle data system, in particular with regard to opening or locking the vehicle via a remote control, collision information, information on vehicle operation (e.g. oil level, tire pressure and fuel level as well as other diagnostic and performance data), and, if applicable, recording of minor damage to the vehicle ("technical vehicle data").

The rented vehicles may contain a so-called vehicle data system that records the aforementioned location data as well as technical vehicle data and thus the vehicle condition and performance (so-called telematics).

Furthermore, vehicles in the European Union must be equipped with the so-called eCall technology. This is activated when you are involved in an accident. With the help of eCall, emergency services are automatically called and information about the accident is passed on. Telematics data is released to emergency services and other parties providing assistance in the event of an accident, as well as to telematics service providers or parties to whom we are legally or contractually obligated to provide this data.

Please note that we are not responsible for any data left in the vehicle as a result of your use. We cannot guarantee the privacy or confidentiality of such information and therefore ask you to delete the data before returning the vehicle.

3. Purpose and legal basis of the processing of rental customer data

We process the rental customer data in order to process the rental agreement between you and us, to manage the contractual relationship and to comply with our legal obligations in this context.

The legal basis for the aforementioned data processing is Art. 6 para. 1 lit. b DSGVO (fulfillment of the rental contract) and Art. 6 para. 1 lit. c DSGVO (fulfillment of legal requirements).

4. Purpose and legal basis of processing vehicle data

We process the Location Data and Vehicle Technical Data as follows:

- Collecting data about the condition and performance of the vehicle during the rental (including vehicle damage, mileage, fuel consumption, and other operational data) to improve the accuracy of our billing processes when the vehicle is returned.

The legal basis for this is our legitimate interest (Art. 6 para. 1 lit. f DSGVO) during the rental to correctly account for the use of the vehicle, including fuel consumption and damage.

- Collecting data related to the driver's operation of the vehicle during the rental for safety and claims management reasons, including contacting the renter of the vehicle if the data indicates that there is a safety or operational problem that we need to bring to your attention.

The legal basis for this is our legitimate interest (Art. 6(1)(f) DSGVO) to defend and manage claims in the event of accidents involving the co-car; to ensure that we comply with our safety obligations in relation to the vehicle and any rental.

- Collecting location data during the rental period if the driver violates the rental agreement (if he fails to return the vehicle on time or if he drives to unauthorized areas) or to defend and manage claims in case of accidents with the rental vehicle.

The legal basis for this is our legitimate interest (Art. 6 para. 1 lit. f DSGVO) to protect our assets, enforce our terms and conditions and defend and manage claims.

- Location data is also processed in anonymized and aggregated form to improve roadsurfer's service in the areas of spots, rental stations and service. Anonymous location data does not allow us to infer your identity, but only to determine the location of the vehicle itself.

The legal basis for this is our legitimate interest (Art. 6 para. 1 lit. f DSGVO) to improve the service and the offer for our customers.

The aforementioned processing does not serve the purpose of creating a user profile. All data will be deleted after the execution of the rental contract, unless you need to continue to be processed for the assertion of legal claims.

For more information on the right to object in connection with our legitimate interest, see [Section IV](#).

If you have given your prior consent in accordance with Art. 6 Para. 1 lit. a DSGVO or § 25 Para. 1 TTDSG, we will process the location data in order to direct you to the nearest workshop if necessary or to help you with other location-related problems (e.g. organizing a towing service).

5. Processing of your location data for product improvement and sending of local offers

Product improvement and sending of local offers means the processing of the GPS data of the rented vehicle in connection with your personal customer data record in order to better tailor our offer to your personal needs and based on your location and to increase the relevance of our actions for you and to send personalized content and offers in your vicinity. We use email addresses to deliver this content.

This processing takes place exclusively on the basis of your consent pursuant to Art. 6 para. 1 lit. a DSGVO. You can revoke your consent at any time.

We only use this data if we have received your express consent to do so. You can revoke your consent at any time with effect for the future, e.g. by e-mail or after booking a vehicle in the customer area provided by deactivating the corresponding checkbox.

6. Credit check roadsurfer subscription

If you book a camper subscription with us via roadsurfer Abo, we perform a credit check with Schufa Holding AG in advance to reduce the risk of non-payment. Whether we can grant you the subscription is decided by our staff based on a forecast based on the value provided by Schufa Holding AG.

The legal basis for this is Article 6 (1) (b) (performance of contract) and Article 6 (1) (f) DSGVO (legitimate interest). The legitimate interest of us is to be able to assess all payments involving a credit risk as well as possible before granting a subscription and to verify whether you can meet the payment obligations. For more information on the right to object in this context, see [Section IV](#). Please note, however, that we cannot offer you a Camper Subscription in this case.

7. Transmission of data to third parties

In principle, data is not transferred to third parties, with the exception of Schufa Holding AG. However, we may be required to release this data in individual cases due to requests from government agencies or private service providers (e.g. parking lot operators, tolls).

To do so, send a message to datenschutz@roadsurfer.com.

The legal basis for the aforementioned data transfer is Art. 6 para. 1 lit. b DSGVO. The data processing is necessary for the fulfillment of the purchase contract between you and us. Furthermore, the customer and voucher data is also processed/stored by us for the prevention of fraud in accordance with Art. 6 (1) lit. f DSGVO (legitimate interest). For more information on the user's right to object in this context, see [section IV](#).
